

THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D.C. 20505

Deputy Director for National Foreign Assessment

NFAC 6887-81  
4 November 1981

MEMORANDUM FOR: Mr. Robert A. Martin  
Director of Politico-Military Analysis

FROM:  25X1  
Special Assistant for Nuclear Proliferation  
Intelligence

SUBJECT: Middle East Nuclear Weapons Free Zone (MENWFZ)  
Study

REFERENCE: Your Memo, Same Subject, dtd 5 October 1981,  
CONFIDENTIAL

This is in response to your request in the reference for CIA's help in drafting certain sections of the subject study. Because of the current high level of demand for other purposes on the analytical resources that would be tapped, we will not be able to provide direct assistance especially given what I understand to be already-overtaken deadlines. We, of course, will be making a substantial contribution eventually in the form of a programmed SNIE on prospects for a MENWFZ. In the meantime we welcome the opportunity to review and comment on the draft sections of the subject study falling within the purview of intelligence.
